

General Practitioner 3 days / week

THE LOCATION

Situated in Singleton, Ungooroo is just 45 minutes' drive from Newcastle and is close to all major centres in the Hunter Region via the Hunter Expressway. It is a rapidly growing location, with new housing developments in the area.

Singleton is a dynamic regional centre with fantastic educational, sporting and recreational facilities and has private and government schooling to year 12.

With rolling vineyards, colonial heritage and outdoor adventure, Singleton is a delightful riverside town in the Hunter Valley wine region. In addition to quality schools, sporting and recreational facilities, you can enjoy wine tasting, heritage walks and wonderful international and local concerts.

Just north is beautiful Lake St Clair, a popular waterway for fishing, kayaking, sailing and water skiing. Singleton is located only a 45-minute drive from Newcastle and a little over 2 hours to Sydney.

THE PRACTICE

Ungooroo GP & Health Services is an Aboriginal Community Controlled Health Organisation (ACCHO) general practice that is committed to promoting wellness and chronic disease prevention. We are nationally accredited through AG PAL and endorsed through AH&MRC and NACCHO.

We currently have Registered Nurses and an Aboriginal Health Practitioner and have been endorsed as an ACCHO since 2016 and fully accredited according to fifth standards Nov 2019 through AG PAL. We have just relocated into the Singleton Centre and now offer 8 consultation rooms for both GP's and allied health services.

We strive to provide a holistic approach to healthcare, utilising our partnership with RDN to provide allied health services such as Physiotherapy, Psychology, Speech, Diabetes workshops, Audiology and Optometry.

We also have Mental Health workers and an Occupational Therapist specialising in Mental Health. Ungooroo is a registered NDIS provider.

In addition, we provide GP outreach services in Muswellbrook in a great location which has easy access for community. Muswellbrook is surrounded by vineyards, olive groves and champion horse studs with national parks a short drive away. This outreach clinic is open 3 days per week.

THE OPPORTUNITY

Due to increased community demand and our expanded outreach services, we are seeking a part-time Felloved GP to work in our Singleton clinic for 3 days per week, ideally Tuesday, Wednesday & Friday but this is flexible.

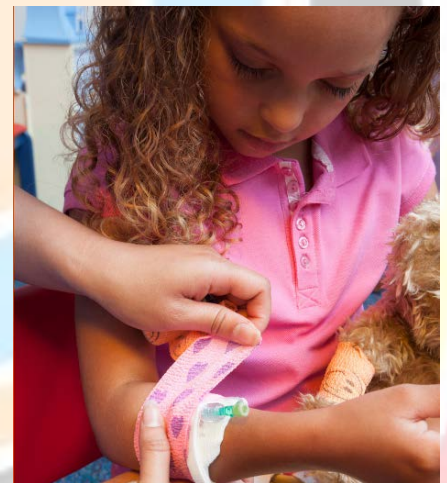

We also will consider General Registration GP's who are working toward Fellowship.

Ungooroo is an Aboriginal Community Controlled Health Organisation and we have lots of patients with complex care needs. Interest in chronic disease, Indigenous Health and Women's Health would be preferred.

There will be a Registered Nurse onsite at the clinic to assist with consultations and procedures.

BENEFITS OF WORKING WITHIN AN AMS

- Experience in working with Aboriginal health and community
- Gain experience in holistic approach to healthcare
- Experience in chronic disease management

If you would like to know more, please contact Ungooroo CEO Taasha Layer, on 02 65715111 or email taasha@ungooroo.com.au
